He was a man of medicine and science, who had been served well by hard logic and by an unwavering commitment to reason. He wasn't prepared easily to accept the notion that logic and reason, while essential tools to anyone hoping to lead a full and happy life, were nevertheless sufficient to describe either the physical world or the human experience..If there had been footsteps, they had fallen silent the moment Junior froze to listen for them. Even over the hard drumming of his heart, he would have heard any noise. The pillow fog seemed to smother sound in the alleyway more effectively than ever..During the first year of her illness, she had been slowly weaned off an iron lung. Until she was seventeen, she required the chest respirator, but gradually gained the strength to breathe unassisted..With the same surprising ease that she had gotten a plane out of San Francisco on a one-hour notice, Celestina booked two return seats on an early-evening flight from Oregon, as though she had a supernatural travel agent..Toward the front of the house, along a hallway suddenly as

dark as a tunnel, toward a vague light in the seething gloom. And here a window at the end of the hall. "Yes, I was." She didn't tell him that her fear had not been allayed by his assurances or by his second walk in the rain. Junior kept both forged driver's licenses in his wallet, in addition to the one that featured his real name. He stowed everything else in Pinchbeck's and Gammoner's safe-deposit boxes, along with the emergency cash. This back blow wasn't just sport, either, but more like Vietnam as lie sometimes told women that he remembered it. As though pitched by a grenade blast, Junior went from his feet to the floor with chin-rapping impact, teeth guillotining together so hard that he would have severed his tongue if it had been between them. Sitting on a stool at the counter, he ordered a cheeseburger, coleslaw, french fries, and a cherry Coke. Agnes found herself drifting up. A frightening sense of weightlessness overcame her. We have inhabited both the actual and the imaginary realms for a long time. But we don't live in either place the way our parents or ancestors did. Enchantment alters with age, and with the age. He had sworn this vow before. An argument could be made that he had broken it. Yet in her heart, she wouldn't relinquish hope for a miracle. This was an amazing boy, a prodigy, a boy who could walk where the rain wasn't, already himself a miracle, and it seemed that anything might happen, that Dr. Chan might suddenly rush into the waiting room, surgical mask dangling from his neck, face aglow, with news of a spontaneous rejection of the cancer. Nolly, Kathleen, and Sparky had prepared him for Industrial Woman, but when the flashlight beam flared off her fork-and-fan-blade face, Vanadium twitched in fright. Without fully realizing what he was doing, he crossed himself. Another pocket. More cartridges. Trying to squeeze just two into the magazine, but his hands shaking and slippery with sweat. When Agnes was surprised to discover that Barty's name had been inspired by the reverend's famous sermon, Paul was startled. He had heard "This Momentous Day" on its first broadcast, and learning that it would be rerun three weeks later by popular demand, he'd urged Joey to listen. Joey had heard it on Sunday, the second of January, 1965-just four days before the birth of his son. Maybe the watch wouldn't be discovered with the corpse. Maybe it would settle into the trash and not be found until archaeologists dug out the landfill two thousand years from now. "No, that's not necessary," Junior said, trying to sound casual. "Considering what you told me, I'm sure whoever's bothering me here can't be Vanadium. I mean, him being on the run, with plenty of his own troubles, the last thing he'd do is follow me here just to screw with my head a little." She herself had been too nervous to eat anything. She'd held the same glass of untasted champagne throughout the evening, clutching it as though it were a mooring buoy that would prevent her from being swept away in a storm. Apparently Maria wished that she'd brought a rosary to dinner. With the fingers of her right hand, she pinched the knuckles of her left, one after the other, as if they were beads. It's been a joy to me to go back to Earthsea and find it still there, entirely familiar, and yet changed and still changing. What I thought was going to happen isn't what's happening, people aren't who-or what-I thought they were, and I lose my way on islands I thought I knew by heart. As Celestina settled on the sofa with the phone in her lap, hesitating to dial until she worked up a bit more courage, Angel said to Tom, "So what happened to your face?" Clutching the purse as though determined to resist robbery even in death, the guy dropped, sprawled, shuddered, and lay still. He'd gone down with no shout of alarm, with no cry of mortal pain, with so little noise that Junior wanted to kiss him, except that he didn't kiss men, alive or dead, although a man dressed as a woman had once tricked him, and though a dead pianist had once given him a lick in the dark. He shouldered past two counter waitresses, past the short-order cook who was working eggs and burgers and bacon on the open griddle and grill. Whatever expression wrenched Junior's face, it must have been intimidating, for without protest but with walled alarm, the employees squeezed aside to let him pass. Smiling in the fearless dark, she listened to the rhythmic breathing of a sleeping boy. "We want the scary one, 'specially if it has spiders, Pixie Lee said squeakily but defiantly. "It sure is," Barty said. When only a mortified silence followed his remark, he added: "Gee, I thought that was kinda funny." Assuming that the boy had closed his eyes and was talking to himself, somewhere between his self-told bedtime story and a dream, Agnes retreated from the room, pulling the door only half shut behind her. Later, at home in bed, after Nolly proved the value of oysters, he and Kathleen lay holding hands. Following a companionable silence, he said, "It's a mystery." Junior kept a file on each man, nevertheless, in case instinct later told him that one of them was, in fact, his mortal enemy. He could have killed all of them, just to be safe, but a multitude of dead Bartholomews, even spread over several jurisdictions, would sooner or later attract too much police attention. "I can do this with just a very little Novocain," she said, "so your mouth won't be numb for dinner." It to the granite-topped secretary, and sat in front of the telephone. Previously, "Well, it still is to me. But what I've been wondering ... when you talk about all the ways things are ... is there someplace where you don't have this problem with your eyes?" If Cain had been attracted to one woman by her looks, surely he would be attracted to the other. And perhaps the sisters shared a quality other than beauty that drew Cain with even greater power. Innocence, perhaps, or goodness: both foods for a demon. "He's blind, sure, but he's also a boy," Angel said, "and trees are something that boys gotta do." Kathleen had never heard a religious calling described in such odd words as these, and she was surprised, indeed, to hear a priest refer to God as "strange." Junior decided to attend the festivities, after all, motivated by the prospect of connecting with a woman more pliant than the Bavol Poriferan sculpture. Their station wagon stood along the service road, at least a hundred yards from the grave. With no wind to harry it, the rain fell as plumb straight as the strands of beaded curtains, and beyond these pearly veils, the car appeared to be a shimmering dark mirage. "I should," Tom agreed, "but the point is this. . ." With the finesse of a magician, he allowed the salt shaker to slip out of the concealment of his palm, and stood it beside the pepper. "This is also me." Indeed, the winter storm had dampened neither his hair nor his clothes. The rain appeared to slide away from him a millimeter before contact, as though the water and the man were composed of matter and antimatter that must either repel each other or, on contact, trigger a cataclysmic blast that would shatter the very foundation of the universe. The previous day, Jacob and Edom had driven back to Bright Beach, to prepare for Barty's arrival. Now they hurried down the back porch steps and across the lawn, as Maria followed the driveway past the house and parked near the detached garage at the rear of the deep property. Phimie's stubbornly high blood pressure, the presence of protein in her urine, and other symptoms indicated her preeclampsia wasn't a recent development; she was at increased risk of eclampsia. Her hypertension was gradually coming under control-but only by resort to more aggressive drug therapy than the physician preferred to use. He'd acted boldly, recklessly, without scoping the territory to be sure Prosser was alone. The accountant lived by himself, but a visitor might be present. Leaving the engine running and the heater on, he got out of the car, leaned back inside, said, "Better lock up while I'm gone," and then closed his door. Junior's heart knocked so hard and fast that he wouldn't have been surprised if Vanadium, at the far end of the room, had begun to tap his foot in time with it. He left by the back door, to avoid the aftermath seeping across the foyer floor. Fog enveloped him, cool and refreshing. "I don't have to graduate in the spring of next year. I can take fewer classes, graduate the

spring after. That's no big deal." Because they were smaller than men and could move more easily in narrow places, or because they were at home with the earth, or most likely because it was the custom, women had always worked the mines of Earthsea. These miners were free women, not slaves like the workers in the roaster tower. Gelluk had made him foreman over the miners, Licky said, but he did no work in the mine; the miners forbade it, earnestly believing it was the worst of bad luck for a man to pick up a shovel or shore a timber. "Suits me," Licky said..Using a false name, claiming that he was an adoptee, Junior made inquiries with several child-placement organizations, as well as with state and federal agencies. He discovered that Wulfstan's story was true: Adoption records were sealed by law for the protection of the birth parents, and getting at them was all but impossible.
