After the paralytic bladder seizures had passed and Junior had drained Lake Mead, Chicane recommended plenty of caffeine and sugar to guard against an unlikely but not impossible spontaneous return to a trance state. "Anyway, after pumping alpha waves for as long as you just did, you shouldn't actually need to sleep anytime soon." Having arrived at this same astonishing but nonetheless obvious conclusion, Harrison said, "Someone has to've been hurt." He hurried out of the kitchen, through the dining room, with Paul close behind him. The deejay announced song number four for the week: the Beatles' "She's a Woman." The Fab Four filled the Studebaker with music. Paul couldn't remember when he began to love her. Not at first sight. But before she contracted polio. Love came gradually, and by the time it flowered, its roots were deep. He had dragged Ihabod halfway across the threshold when he heard someone say, "No." Rena laughed. "Oh, but true! And not just a garden. I'm a field of flowers!" She let go of her skirt, which shimmered like cascades of falling petals. "So tonight will be a famous night, Celestina." In the physician's eyes, a yearning to believe. In his face, a squint of skepticism. Grace White was petite, and Paul wasn't. Otherwise he might not have been able to halt her determined rush toward her husband, might not have been able to scoop her off her feet and, carrying her in his arms, spirit her to safety. Indeed, she found it difficult to talk with her son in their usual easy way. She heard a stiffness in her voice that she knew would sooner or later be apparent to him. Soon paramedics followed the police, who spread out through the apartment, and Junior relinquished his grip on the dishtowel. Your deeds ... will return to you, magnified beyond imagining ... the spirit of Bartholomew ... will find you ... and mete out the terrible judgment that you deserve. "Well, Uncle Jacob doesn't understand kids. Anyway, this is pretty good stuff." Carrying the brochure, Vanadium returned to the bathroom and switched on the overhead light. He stared at the slashed wall, at the name red and ravaged. They were driven to St. Mary's by Detective Bellini in a police sedan. Tom Vanadium—a friend of her father's whom she had met a few times in Spruce Hills, but whom she didn't know well—literally rode shotgun, tensed to react, wary of the occupants of other vehicles on. He was too sensitive a soul to be able to take either a handsaw or a power saw to a corpse. He had nothing against men or women of color. Live and let live. One earth, one people. All of that. "When you cut Naomi's string, you put an end to the effects that I her music would have on the lives of others and on the shape of the future. YOU struck a discord that can be heard, however faintly, all the way to the farthest end of the universe." She leaned forward in her seat, and toward him, so he could see her more directly, and when she put one trembling hand against his cheek, his head dropped forward on neck muscles as limp as rags, his chin. Luck favored Paul: The hero was here, having breakfast. He and two other men were deep in conversation at a corner table. The cop weighed too much to be carried any distance, the blanket proved effective, the decision to drag him was wise, and the whole process was value neutral. Certain that he was overreacting, Tom nevertheless left the kitchen as a cop, not a priest, would leave it: staying low, knife thrust in front of him, clearing the doorframe fast. The girl's appetite was sharp, even though the food was soft and bland. Soon, she slept. The afternoon was winding down, and the lowering sky seemed to be drawn steadily toward the earth by threads of gray light that reeled westward, ever faster, over the horizon's spool. The air smelled like rain waiting to happen. Convinced he was alone and unobserved, Junior leaned into the car and shifted it out of park. He released the hand brake. With a prayer to the Holy Mother, Maria held one third of a knave of spades to the bright flame of the first candle. When it caught fire, she dropped the fragment into the votive glass, and as it was consumed, she said aloud, "For Peter," referring to the most prominent of the twelve apostles. voice was flat, a drone; he had delivered not an emotional threat, but a quiet promise. Barty's reading and writing skills appeared to be related to his talent for math, as well. To him, language was first phonics, a sort of music that symbolized objects and ideas, and this music was then translated into written "syllables using the alphabet—which he saw as a system of math employing twenty-six digits instead of ten. Thanksgiving dinner was a fine affair, and Christmas was even better. On New Year's Eve, Wally downed one drink too many and more than once offered to perform surgery on any member of the family, free of charge "right here, right now," as long as the procedure was within his area of expertise. "Oh, it doesn't mean you're nervous in that sense. Nervous in this case means psychologically induced. Grief, Enoch. brief and shock and horror—they can have profound physical effects." Mary Lampion, little light, was home-schooled as her father and mother had been. But she didn't study just reading, writing, and arithmetic. Gradually she developed a range of fascinating talents not taught in any school, and she went exploring in a great number of the many ways things are, journeying to worlds right here but unseen. Eventually, a braless blonde in shiny white plastic boots, a white miniskirt, and a hot-pink T-shirt featuring the silk-screened face of Albert Einstein, said, "Sure, I know her. Had some classes with her. She's nice enough, but she's kind of nerdy, especially for an Afro-American. I mean, they're never nerdy—am I right?" Then by ambulance to the hospital, whisked into surgery, and for a while, blessed unconsciousness. Barty turned away from her, surveyed the kitchen, and said, "Ah. The twisty is me." She didn't hide the diagnosis from the family, but she delayed telling them the prognosis, which was bleak. Already, her bones were tender, packed full of mutated immature white cells that hindered the production of normal white cells, red cells, and platelets. From the bathroom, Junior gathered an electric razor and toiletries. He added these to the suitcases. "There's nothing here for you," she said, stepping back from the door in order to close it. She bit her lower lip, held her breath, repressed the sob that sought release, and said, "I know." Jacob feared what men could do with clubs, knives, guns, bombs, with their bare hands, but he was most preoccupied by the unintended death that humanity brought upon itself with its devices, machines, and structures meant to improve the quality of life. Alone, Junior sat in the breakfast nook with a pot of coffee and an entire Sara Lee chocolate fudge cake. On other nights, she had overheard this and been touched. On this Christmas Eve, however, it filled her with wonder and wondering, for she recalled their conversation earlier, at Joey's grave. Perhaps he would not have leaped along this chain of conclusions if he'd not been an admirer of Caesar Zedd, for Zedd teaches that too often society encourages us to dismiss certain insights as illogical, even when in fact these insights arise from animal instinct and are the closest thing to unalloyed truth we will ever know. For reasons of mice and dust, doors at the Lampion house were never left ajar, let alone open this wide. If there had been footsteps, they had fallen silent the moment Junior froze to listen for them. Even over the hard drumming of his heart, he would have heard any noise. The pillow fog seemed to smother sound in the alleyway more effectively than ever. Indeed, he would get through the rest of 1965 without resorting to another homicide. The nonfatal shooting in September would be regrettable, quite messy, painful—but necessary, and calculated to do as little damage as possible. Soon he dispensed with picture books and progressed to short novels for more accomplished readers, and then rapidly to books meant for young adults. Tom Swift adventures and Nancy Drew mysteries captivated him through the summer and early autumn. She rushed on: "I'm one of the best waitresses they have, so if I ask for dinner shifts only, I'll get them. Tips are better

at dinner. And working the one shift, four and a half to five hours, I'll have a regular schedule." Easter still lay a few weeks away, but already Celestina had begun decorating more than a hundred baskets, so that nothing would need to be done at the last minute except add the candy. Her living room was a warren of baskets, ribbons, bows, beads, bangles, shredded cellophane in green and purple and yellow and pink, and decorative little plush-toy bunnies and baby chicks..For Agnes and Barty, one stop remained, where some of the joy of Christmas would always be buried with the husband that she still missed every day and the father that he would never know..IN GOOD DARK SUITS, clean-shaven, as polished as their shoes, carrying valises, the three arrived in Junior's hospital room even before the usual start of the working day, wise men without camels, not bearing gifts, but willing to pay a price for grief and loss. Two lawyers and a high-level political appointee, they represented the state, the county, and the insurance company in the matter of the improperly maintained railing on the observation platform at the fire tower..Leave the lamps burning, the door unlocked. A murderer, frantic to vanish while the victim remained undiscovered, wouldn't be worried about the cost of electricity or about protecting against burglary.. "Two weeks to go. I'm not going to miss that. I've cleared all appointments off my calendar." "A friend's daughter. They say she died in a traffic accident down in San Francisco. She was even younger than Naomi." "Ouch," said Edom, and this earned him loving smiles from Maria, Agnes, and Barty..Maria set aside two cards before turning another faceup. This was also an ace of hearts..He was a man of medicine and science, who had been served well by hard logic and by an unwavering commitment to reason. He wasn't prepared easily to accept the notion that logic and reason, while essential tools to anyone hoping to lead a full and happy life, were nevertheless sufficient to describe either the physical world or the human experience..This didn't seem strange to him. Among the many things that no longer mattered were the concepts of distance and time.. "Now this. But even if your dad had cooperated with me, nothing would have changed. Since Phimie never revealed his name, I wouldn't have been able to go after Cain any differently or more effectively." He planned, as soon as they took him out of his cell, to use the old Changers spell of self-transformation and so escape. Surely his life was in danger, and it would be all right to use the spell? Only he couldn't decide what to turn himself into-a bird, or a wisp of smoke, what would be safest? But while he was thinking about it, Losen's men, used to wizard's tricks, drugged his food and he ceased to think of anything at all. They dumped him into a mule-cart like a sack of oats. When he showed signs of reviving during the journey, one of them bashed him on the head, remarking that he wanted to make sure he got his rest..THE SUN ROSE above clouds, above fog, and with the gray day came a silver drizzle. The city was lanced by needles of rain, and filth drained from it, swelling the gutters with a poisonous flood..Tammy--the stock analyst, broker, and cat-food-eating feline fetishist-whom he had dated from Christmas of '65 through February of '66, had given him the timepiece in return for all the trading commissions and perfect sex that he had given her..No sign of Vanadium. Some of the taller monuments offered hiding places on both sides of the cemetery road, as did the thicker trunks of the larger trees..The toast now came to Celestina. "To Phimie, who will be with me in memory every hour of every day for the rest of my life, until she is with me again for real. And to ... to this most momentous day." "If they always go there, smooch--smooch, then you're going to wind up with one really fat finger." *. "Veal fit for kings," said their waiter, delivering the entrees, and one taste confirmed his promise..Tom believed that the girl had an intuitive understanding of the true complexity of the world, but she was only three, after all, and neither ready nor able to absorb the scientific theory that supported her intuition..Evidently, last evening, prior to keeping a dinner date with Victoria, when the taunting detective had illegally entered Junior's house and placed another quarter on the nightstand, he had seen the directory open on the kitchen table. Deducing the meaning of the red check marks, he inserted this card and closed the book: another small assault in the psychological warfare that he'd been waging.. "Good day, sir," Lipscomb said, closing the door in Neddy's face, possibly compressing his nose and bruising his boutonniere..Coughing, spitting saliva that was bitter with toxic chemicals, Paul followed her, slapping frantically at his clothes when fire singed his shirt..Furthermore, fear of the unknown is a weakness also because it humbles us. Humility, Caesar Zedd declares, is strictly for losers. For the purpose of social and financial advancement, we must pretend to be humble-shuffle our feet and duck our heads and make self-deprecating remarks-because deceit is the currency of civilization. But if ever we wallow in genuine humility, we will be no different from the mass of humanity, which Zedd calls "a sentimental sludge in love with failure and the prospect of its own doom." "What's below us?" Hound pointed to the floor, paved with rough slate flags..Murmuring on the edge of sleep, Barty spoke to his father in all the places where Joey still lived: "Good-night, Daddy." "You're one to talk," Celestina said. "Who was it told us they were sitting hand in hand on the front-porch swing." Although she had never seen snow other than in pictures and on film, this deep-settled silence seemed to speak of falling flakes, of white muffling mantles, and she wouldn't have been in the least surprised if, stepping outside, she had found herself in a glorious winter landscape, cold and crystalline, here on the always-snowless hills and shores of the California Pacific..More likely than not, this was a lie, and the detective was, setting him up. Suddenly Junior wished that he had denied dreaming..His artificial eyes were almost a month old. He'd been through surgery to have the eye-moving muscles attached to the conjunctiva, and everybody told him that the look and movement were absolutely real. In fact, they had told him this so often, in the first week or two, that he became suspicious and figured that his new eyes were totally out of control and spinning like pinwheels..But the other learning he had been given had made Otter touchy in these matters, delicate of conscience. The big galley they were building now would be rowed to war by Losen's slaves and would bring back slaves as cargo. It galled him to think of the good ship in that vicious usage. "Why can't we build fishing boats, the way we used to?" he asked, and his father said, "Because the fishermen can't pay us."
