"Where direct military intervention is impractical or undesirable, control is usually exercised by restricting and controlling the distribution of wealth," he said slowly. "Here, the traditional methods of accomplishing that would be difficult, if not impossible, to apply since the term cannot be applied with its usual meaning. This society must have its pressure points, nevertheless. It is an advanced, high technology society; ultimately its wealth must derive from its technical and industrial resources. That is where we should look for its vulnerable spots." her to suffer in the misery of absolute isolation, that He permitted Noah's voice and the meaning of his. Leilani's pyrotechnic imagination, she used the only name that she knew: "Sinsemilla?". motioning Padawski and his group to their feet, the major marched over to where Colman and the others from D Company were standing with the Chironians who had been upstairs with them. He had already taken their names and established that they had not witnessed the incident firsthand. "You guys are free to go," he informed them. "If there's a hearing, you might be called in to testify. If so, the appropriate people will contact you." so intently focused on the rear entrance to the restaurant that not one of them catches sight of Curtis as powerfully intriguing but also nearly as scary as any of the snarling, carnivorous antagonists of the horror. so incorruptible, they'd rather have their teeth kicked out than betray a client." at the shuttle base. We've been ordered to send two platoons. Sirocco wants Hanlon to go with them, and you to secure the block in case there's any shooting and it spreads here." As Chauxez finished speaking, an indicator announced an incoming call from the Government Center. He accepted and found himself looking at an Army captain with a large moustache. "Forward Security Command Post," Chauxez acknowledged. "That's tough. But my useless dad skipped the day I was born." "If you're going to lose anyway, you might as well win," Swley replied. "If you win the wrong way, you lose, and if you lose either way, you lose. So why not enjoy it?" Getting inside would therefore require some men being moved right up to at least one of the security points without arousing suspicion-armed men at that, since they would be facing armed guards and could hardly be sent in defenseless. Malloy had again discouraged ideas of attempting to impersonate SD's. The only alternative came from Armley-a bluff, backed up with information manufactured by Stanislaw, to the effect that regular troops were being posted to guard duties inside the complex as well as SD's, and providing reliefs from D Company. Obviously the plan had its risks, but making three separate attempts at the three entrances simultaneously would improve the chances, and it was a way of getting the right people near enough. In the end, Sirocco agreed. Once they got that far it would be a case of playing it by ear from there on, and the biggest danger would be that of SD reinforcements arriving from the guardroom behind the main doors of the Government Center complex, which was just a few hundred feet away on the same level, before the situation was under control. If we mess it up, the universe out there won't miss us." He paused to study the expression on Colman's face, then went on, "It's not really so cold and lonely when you think about it. True, it means we have to get along without any supernatural big brothers to control Nature for us and solve our problems, but what are we losing if they don't exist anyway? On the other hand, we don't have to fear all the nonsense that gets invented along with them either. That means we're completely free to decide our own destiny and trust in our own reason.
