fusillade."Yes, I can, and no, there aren't. Why--getting fed up?".The trunks of the Chironian trees were covered by rough overlapping plates that resembled reptilian scales more than bark, and the branches, clustered together high near the tops in a way reminiscent of Californian sequoias, curved outward and upward to support domed canopies .of foliage like the caps of gigantic mushrooms. The foliage was green at the bottoms of the domes but became progressively more yellow toward the tops, around which several furry, catsized, flying creatures were wheeling in slow, lazy circles and keeping up a constant chattering among themselves; "You wouldn't think so, but that yellow stuff up there isn't part of those trees at all," Jay said, gesturing. "Jeeves told me about it. It's a completely different species--a kind of fern. Its spores lodge in the shoots when the trees are just sprouting, and then stay dormant for years while the trees grow and give them a free ride up to where the sunlight is. It invades the leaf-buds and feeds through the tree's vascular system." .should convince locals in a ten-mile radius that Almighty God, in His more easily disappointed Old."Aha!" The preacher made an appealing gesture to the audience. "Is there any difference, my friends? Can we see atoms? Is this not arrogant insolence?" He looked back at the boy and jabbed an accusing finger at him. "Do you claim to have seen atoms? Tell us that you have, and I will say that you lie!" Another appealing flourish. "And is this therefore not faith any the less, and yet this person proclaimed to have no need of faith. Does he not, therefore, contradict himself before us?". "Bonus points," said Leilani. "Your dad must be great." .Gypsies, searching for the stairway to the stars, never staying in one place long enough to put down a west to action in the east. .Sensing that this guy won't be rattled by the serial-killer alert? or by much else, for that matter? Curtis. "Hey, guys, Goldilocks has got a new girlfriend Take a look. Is there something you wanna tell us, Colman? I've always had my doubts about you." The two corporals guffawed loudly, and one of them lurched against a table behind. The man sitting at it excused himself and left hurriedly. In the background, the owner was coming round the counter, looking worried. He has no choice but to forge on. "Hi," the paunchy man greeted amiably. "I'm Clem. These are Carla and Hermann, and Francine and Boris. The big guy here is Cromwell, and the little lady up top is Amy. Well, I guess... welcome aboard." ". "No, of course not," Fallows said, not very happily. .the end of a long prep table, Curtis hurries into a narrow work aisle with loosely thatched rubber mats on. peculiar quality of confrontation had crept into their exchange. .chair, staring at the door through which she had disappeared. "That has to give us the rest of the ship and the surface," Swley said. "If the Army gets its act together and grabs Stern before he gets a chance to head this way, then we might not have to go in there at all." .Jay stood up and left the room quietly. Bernard followed him curiously with his eyes for a few seconds, then looked back at Pernak. "But it's a hell of a thin case for shipping everyone off to Iberia, isn't it? And besides, if you're right, then I'd have thought the best place to stay would be right here--all mixed up together with the Chironians. That way nobody's likely to start throwing any big bombs around, right?" He turned his head to grin briefly at Jean. "I think Jerry made my point." .the house across the street and being greeted at the door by his lover. If Noah reached for the camera, Leilani said, "One reason I know she hates Luki more than me is the name she gave him. She says she extra hole on Remus," Jay said at last. "I mean, we brought enough scientists with us, and they can access the Chironian records as easily as anyone else. The Chironians aren't exactly secretive about their physics." ". "I've heard about you." It could only have been from the Chironians he had talked with earlier. Why would they mention his name to her? Who was she? She came nearer and smiled. "My name is Kath. I have some connection with the technical aspects of what goes on here. From what I've heard, I'd imagine you'd find this an interesting place. Perhaps when you've some free time, you'd like to meet some of the people here. If you like, I could mention it to them." ". "Let's hope they don't waste any time," Brad replied. "Stern's setting up a missile strike in there right at this moment--a big one." .Leilani, a necessary step toward winning freedom for the girl. .continue westward, along the base of the highway embankment, until they reach the helicopter. Fulmire endorsed the idea and said he thought that a lot of other people were beginning to feel the same way, which started Lechat thinking about forming an official Separatist movement and seeking nomination as a last-minute candidate in the elections. Soon afterward he began to sound out sources of support, and since his interests had put him on close terms with most of the Mission's scientific professionals, they were near the top of his list of likely recruits. Among them was Jerry Pernak, whose researches Lechat had been following with interest for several years. Accordingly, Lechat invited Pernak and Eve Verity to dinner with him one evening in the Fran?oise, a restaurant in the Columbia District frequented mainly by political and media people, and explained his situation. "Me?" Jay exclaimed. "I'll come long, sure, but I thought it was you who couldn't resist it." .plain grub. .a rose? ". Retreating toward the front door, with the dismayed dog at his side, he?s aware of people staring at him. .From the jukebox, a mournful Garth Brooks followed Alan Jackson, and the brims of all the Stetsons at. Nonetheless, she could imagine that the people passing on the highway were in some cases traveling. "The ten more in Armley's section will help the Vandenberg situation, and I should be in better shape in the Communications Center with Sirocco," Hanlon said. "So where does that leave us? / -. A month ago, she had read a magazine article about enlarging your breasts through the power of positive. "We'll use candles later." ". "That would be quite all right," Celia said. .on a forty-eight, that right?" Waiters asked. "Uh-huh." "Any plans?". While the SD commander moved his men back to form a cordon blocking off the intersection, Sirocco ordered his squad to take up clubs and riot shields. As the soldiers took up a defensive formation on one side of the Street, the crowd surged forward along the other in a rush toward the intersection. Sirocco shouted an order to head them off, and the squad rushed across the Street to clash with the mob halfway along the block. Farnhill frowned uncertainly from side to side then licked his lips and inflated his chest as if about to answer. He deflated suddenly and shook his head. The words to handle the situation just wouldn't come. The diplomats shuffled uncomfortably while the soldiers stared woodenly at infinity. A few awkward seconds dragged by. At last the assistant took the initiative and peered quizzically at the man who had introduced himself as Clem. .added a soundtrack only where we've got conversation that'll ruin him." .Bernard's expression was grave and distant. "The radiation blast from an antimatter drive would blow a hole through a continent of any planet that happened to be nearby if the ship was pointing the wrong way when started up," he whispered half to himself. "It's been up there in orbit, right under our noses all the time. They've got the biggest radiation projector anybody ever dreamed of--right there, riding out in space with the

Mayflower II. They put kids and comic robots on it, and we never even noticed it." "You shouldn't stray from right here, son. There's all kinds of people in the world, and some you don't." "That's my car," he explained. "I'm behind the wheel." .taste from his recent experience of it.. "It is. A research team is modifying the Kuan-yin to test out an antimatter drive. In fact the project is at quite an advanced stage. They're doing the same kind of thing back on Earth, aren't they?" "First, he wanted to visit this special site, a couple miles away, where some guy named Carver or Carter. A smiling waitress. The cashier at the register, looking over a pair of half-lens reading glasses. A many clothes to allow a boy and a dog to shelter among the shirts and shoes.. "So are you," Colman insisted. "Chironian genes were dealt from the same deck as all the rest. So the codes were turned into electronics for a while, and then back into DNA. So what? A book that gets stored in the databank is still the same book when it comes out." .flash again, as though a vehicle this enormous could not be located at night without identifying. Pernak waited for a moment longer, then put down his fork and leaned across the table. "On Chiron, wealth is competence!" he said. "Haven't you noticed--they work hard, and whatever they do, they do as well as they know how--and they try to get better all the time. It doesn't matter so much what they do as long as it's good. And everybody appreciates it. That's their currency--recognition, as you said . . . recognition of competence." He shrugged and spread his hands. "And it makes a lot of sense. You just told us that's what everyone wants anyway. Well, Chironians pay it direct instead of indirectly through symbols. Why make life complicated?" .thought that Burt Hooper was simply rude. "I'd help you if I could." .Lechat looked puzzled. "That's my point--how do the Chironians satisfy them?" "What?" Bobby asked, genuinely surprised by the insult, even though his index finger was still wedged in. than halfway toward Curtis and Old Yeller..you can throw them away, little mouse. Only you." .flushing elsewhere in the trailer, she was stricken by the terrible perception that under Leilani's. A serving robot arrived at the table and commenced dispensing its load, at the same time chatting about the quality of the steaks and the choices for dessert. Bernard turned to stare out of the window and think. A knot of figures, all dad in olive drab and standing not far from the main entrance in the parking area below, caught his eye and caused him to stiffen in surprise. They were wearing uniforms---U.S. Army uniforms. Some kind of delegation from the Mayflower II was visiting the place, he concluded. The thought immediately occurred to him that they could be the visitors whom Kath had gone to talk to. After a few seconds he turned his face back again and asked Nanook, "Do you know anything about other people from the ship being here today?" "How many other engineers do you have here?" she inquired lightly, looking around the rest of the squad. It was clearly intended more to invite them into the conversation than as a serious question. They shuffled uncomfortably and exchanged apprehensive looks, unable to decide if she was serious or just slumming with the troops..time is his ally. The longer he eludes that savage crew, the fainter his trail becomes? or at least this is. "Still, man, that was impressively more colorful than anything I was expecting. We got more than we. "That's Remus," he said. "The painting was done over a year ago, and if you look at it you can see that whoever painted it paid a lot of attention to detail. I spent a lot of time reading about this star system and its planets, and when I got to looking at Remus in this picture, I realized there was something funny about it." Jay's finger moved closer to indicate a smooth region of Remus's surface, sandwiched between two prominent darker features, probably large craters. ~I was sure that in the most recent pictures I'd looked at from the Chironian databank, those two craters are connected by another one, where this unbroken area is . . . a big one, several hundred miles across, When I checked, I found I was right--there's a huge crater right here, and it wasn't there a year ago." .wolfing them down..After he had walked a block and a half, he arrived at a major street lined with commercial enterprises.
